

APPENDIX I

PROGRAM OF THE CENTER

RESIDENT INSTRUCTION

COLLEGE OF MEDICINE. The medical college has a student body of 245 at present. As a prerequisite to enrollment, all applicants admitted must have completed 16 years, 8 months of schooling and passed the intermediate examination in the science group accepted by the University of Madras. Admission is limited annually to 45. In 1951, one thousand candidates applied; over the years 10 have been turned away for each one we had room for in our classes. The students come from all parts of India and from Pakistan, Ceylon, Burma and Malaya. More than 90% are Christians; one-third are supported by missions. In addition there are 9 Hindus, 2 Parsees, 1 Mohammedan and 1 Sikh enrolled.

We try to determine the best candidates by a thoroughgoing process of written examinations and personal interviews. The Admissions Advisory Board has information for judging every attribute and qualification of the individual when making the final selection of those to be accepted. Many of our graduates have passed their final university professional examination with highest honors.

COLLEGE OF MEDICINE CURRICULA

1. The Bachelor of Medicine and Bachelor of Surgery Degree is offered in the five year course for undergraduate students and the two year course for medical licentiates and diploma holders who are graduates of lower grade medical schools.

2. One year's internship at Vellore is recognized as a basis for all branches of postgraduate study.

3. The following training in ancillary services is offered:

Government Certificate in Pharmacy, one year course,
Radiography, Christian Med. Assoc. of India diploma,
Laboratory technicology, Christian Med. Assoc. of India diploma.
The last two are informal courses of varying length. We expect to develop these into more comprehensive courses with government recognition. We also plan to expand the pharmacy course into a two year course.

GRADUATE STUDIES FOR ADVANCED QUALIFICATIONS

Facilities are provided for advanced studies and the training of selected personnel in the Departments of -

- | | | | |
|------------------|---------------------|----------------|---------------|
| 1. Medicine | 2. Surgery | 3. Pathology | 4. Obstetrics |
| 5. Gynaecology | 6. Thoracic Surgery | 7. Anaesthesia | 8. Pediatrics |
| 9. Neuro-surgery | | | |

COLLEGE OF NURSING. There are 174 students in the various courses at present. Successful completion of high school is the prerequisite for all incoming students.

PROGRAM OFFERED IN THE COLLEGE OF NURSING

1. The Certificate Program of three years leads to a Certificate in Nursing.
2. The Degree Program of four years leads to the Bachelor of Science Degree in Nursing conferred by the University of Madras.
3. The Midwifery Program of nine months, open to fully qualified nurses, leads to a certificate in Midwifery.
4. The Sister Tutor Postgraduate Program of nine months leads to a certificate in Teaching and Supervision recognized by the Indian Nursing Council.

CLINICAL AND TEACHING UNITS

The two hospitals and the rural center at Kavanur provide an almost unlimited and remarkably varied clinical experience for our students. Clinical material for teaching purposes - patients suffering from innumerable types of disease, including nearly all those peculiar to India - is plentiful. Thousands of patients come from the town of Vellore (population 106,000) and from the many villages within a radius of 100 miles. Special cases have been admitted from distant parts of India as well as from Ceylon and Burma.

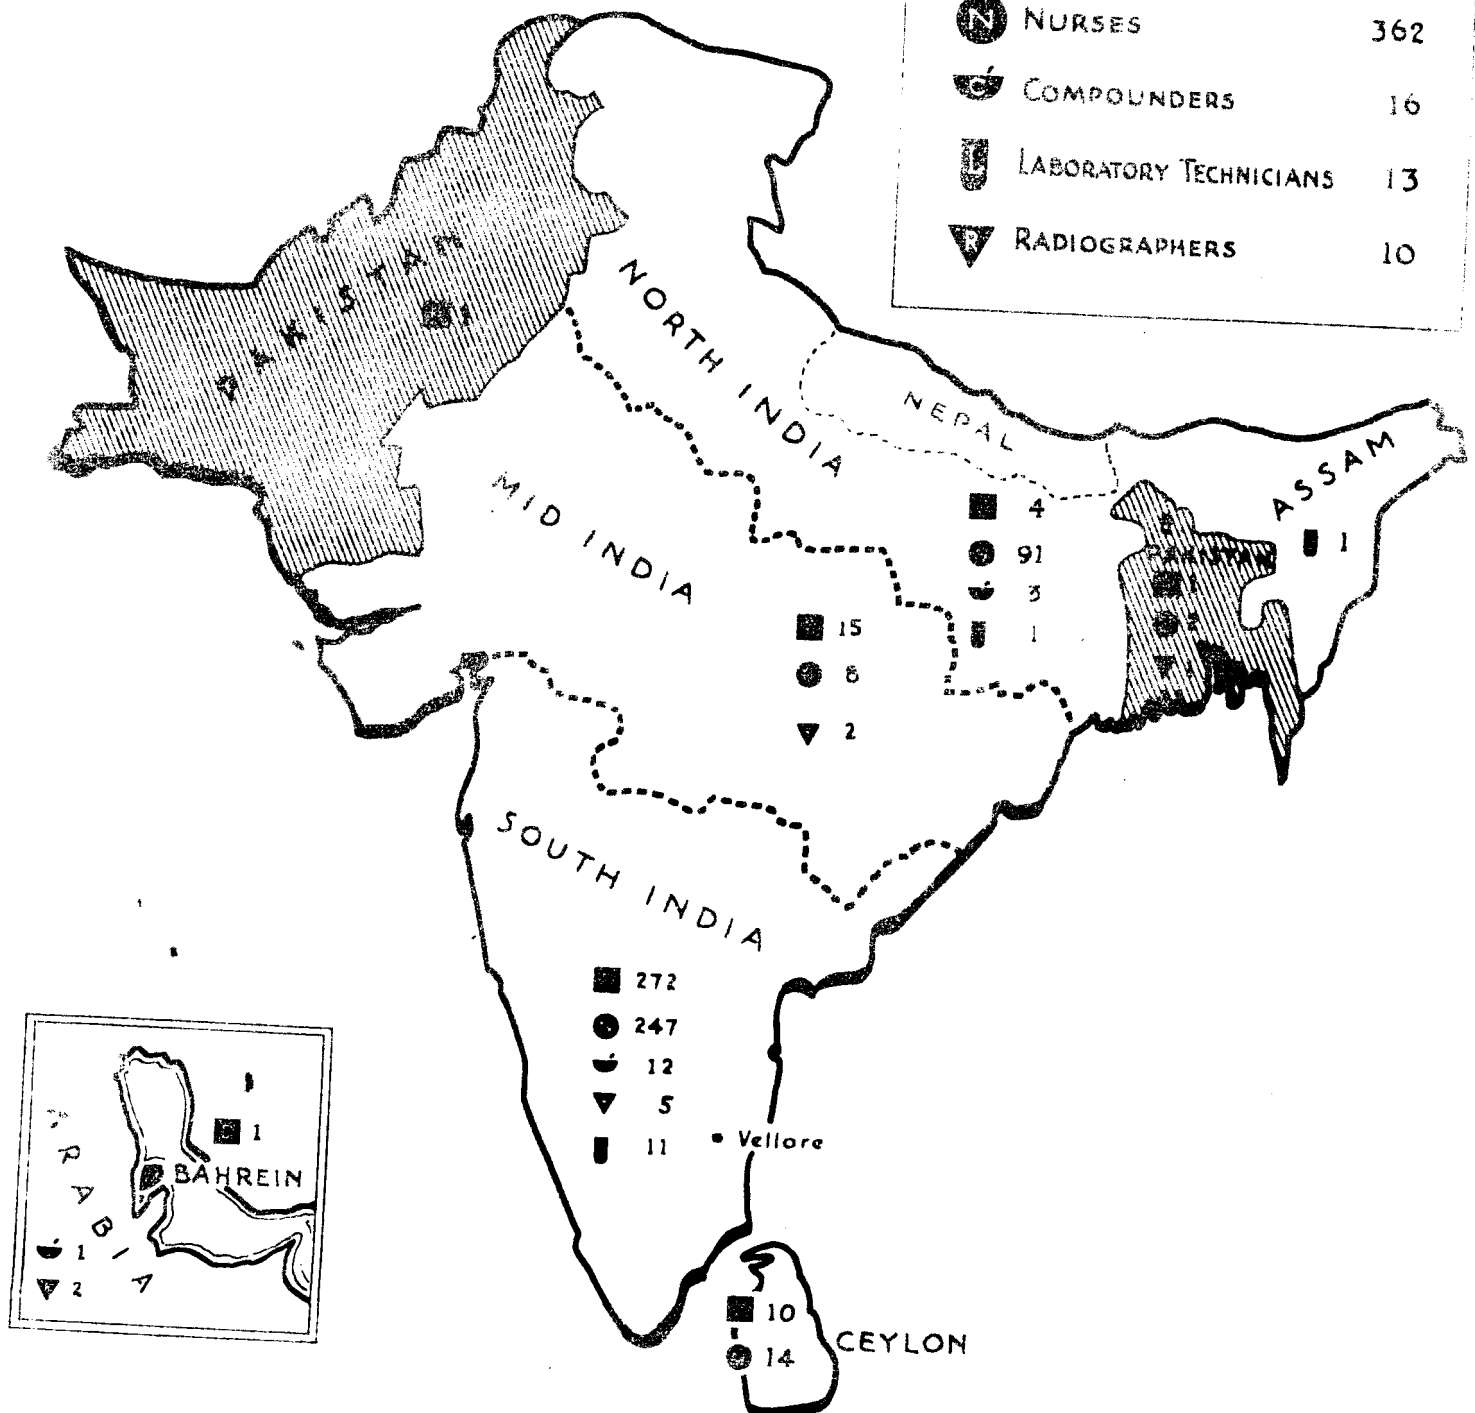

CURRICULA

FUTURE PROGRAM

	<u>Present Enrollment</u>	<u>Future(1955) Enrollment</u>
<u>Medicine and Surgery</u>		
Bachelor of Medicine and		
Bachelor of Surgery, Univ. of Madras	245	250

APPENDIX VI

CONTRIBUTIONS OF VELLORE TO OTHER MEDICAL SERVICES

Conferences at Vellore

Vellore helped the All India Medical Licentiates to hold their conferences there in 1949.

Vellore was the meeting place for the 1951 conference of the Christian Medical Association on the future of Medical Education in India at which far-reaching decisions were made.

The Madras Branch of the Obstetrical and Gynaecological Society of India meets in Vellore in August and similar meetings of societies have taken place from time to time.

Facilities are regularly provided in the Hospital for meetings of the North Arcot Branch of the Indian Medical Association and Vellore frequently provides speakers at these.

Three regular weekly conferences take place, Surgical, Medical and Clinico-pathological, for the hospital staff and are open to visitors and observers of the Hospital practice.

Consultant Service of Vellore

Regular visits by Dr. P. W. Brand to Lady Willingdon Government Leprosy Sanatorium, Chingleput, and Vadathorasalur.

Dr. H. H. Gass is the Superintendent of Karigeri Leprosy Sanatorium.

Dr. N. S. Macpherson is the Regional Medical Advisor in India for the Church Missionary Society.

Pathology: Slides sent for diagnosis from Mission Hospitals in India and Pakistan. Inspections of laboratories in connection with the Christian Medical Association of India are conducted.

Radiology: X-Ray plates sent for diagnosis from Mission Hospitals. Radiological examinations carried out for Vellore Municipal and Police hospitals and for local practitioners. Inspection of X-Ray departments of Christian Medical Association hospitals conducted.

Consultation visits to private patients have been made to such centers as Madras, Bangalore, Hyderabad, Bombay, Delhi, Vizagapatam, Dohnavur, etc., but patients are encouraged to come to Vellore owing to the pressure of work there.

Numerous consultations are held both in the hospital and the various towns around. A large consultation practice by mail is done with many cases being received in this way, from doctors all over India and Burma and Ceylon. This is done without charge in order to encourage free use of the service.
